

Junior Lawyer

Christensen Law Firm – Cambridge, Ontario
Full-Time

Christensen Law Firm is seeking a junior lawyer of the bar of Ontario. Our firm restricts its practice to unsecured debt collection. We have pioneered mass litigation programs for large credit granters and are changing the way debt collection is done in Canada.

The ideal candidate will be interested in joining a non-traditional practice that will require a unique combination of legal and business skills. The responsibilities we expect you to take on and grow into include preparing claims and motion materials, reviewing and responding to defences, motions and counter-claims, negotiating and settling files, appearing at settlement conferences, trials and motions, preparing appeal materials and appearing in appellate courts, managing and directing a mass litigation portfolio, and conducting research and developing and implementing innovative legal approaches. This would be done within a dedicated team of lawyers, paralegals, law clerks, legal assistants and other professionals and include supervising the legal work of non-lawyer staff.

This position requires a persuasive communicator with strong legal, analytical, business, negotiation and people-management skills. The successful candidate will be self-motivated, independent and comfortable in a dynamic environment with changing priorities, be able to think and address problems strategically, and will have the skills necessary to manage a large case load.

The environment is casual, friendly, and geared towards long-term career development. The compensation package includes a competitive base salary, substantial performance bonus, and medical/dental benefits.
